**SAVE THE DATE** - June 21<sup>st</sup> in Austin, TX from 1-330pm

Sports+Med Team Based EMS Course  
“Improving Player Safety through Emergency Medical Preparedness”

This presentation by Pro Sports EMS will focus on emergency management. This course will give participants the opportunity to review and use their EMS skill set. Topics discussed in this session involve airway management, spinal stabilization, hemorrhage control, and managing EMS incidents on and off the ice. All instruction will be focused on evidence-based practices currently used nationally in EMS training programs. Participants will also have a simulated hands-on experience, using EMS equipment to evaluate and treat injured athletes.

## Learning objectives:

- ▶ Participants will be able to express how to manage injured/ill athletes while waiting for emergency response resources to arrive
- ▶ Participants will be able to role play in different on-ice and off-ice emergency scenarios.
- ▶ Participants will be able choose the proper course of action to use during emergency situations while traveling with a team

Course Fee: \$60

(2 CEUs. BOC Approved Provider #490)

+++SPECIAL+++

**STOP THE BLEED** Training and Certification  
All participants will receive **STOP THE BLEED** certification
